

# Prepaid Solutions

## Recap 2018 | Already planned for 2019

In 2018, FIS Prepaid Solutions launched new products to simplify business operations and deliver payment solutions for every need of your organization.

### Prepaid Program Management (PPM)

**Processing, Program Management, Sponsor Bank** combined in one single source. A platform where you want to expand your offering into prepaid, but do not have the in-house expertise to manage the program end to end.

FIS understands that prepaid card programs are not one-size-fits-all propositions. Your business requirements are unique. With prepaid solutions from FIS, there is flexibility to customize - each offering to provide distinct levels of service, capabilities and features.

Did you know that an estimated **\$368 billion** will drive the prepaid industry in 2019 and that's outside of gift cards?

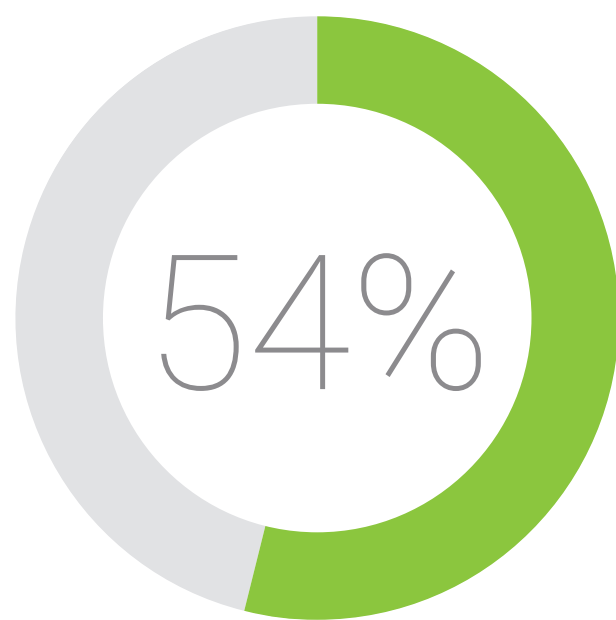

It's estimated that about **7 million** people will be using prepaid cards as a replacement for checks.

The key advantages of our Prepaid Program Management include providing a more turnkey solution with lower costs, quicker implementation and increased time to market compared to adding to your existing business.

### FIS Card Store

A packaged program consisting of **Reward, Incentive and Rebate cards**. All cards are **open-looped spend, anywhere Visa®** is accepted and corporate funded. This provides the use of prepaid cards to **eliminate** cash, checks and highly manual processes. It **lowers costs** while streamlining **operational tasks, incenting employees**, while helping to build a corporate culture of reward for good actions or initiative.

According to Incentive Research Foundation (IRF), organizations are continuing to increase their demand for gift cards in the coming year by as much as 54%.

To iterate, the key advantage of this program is to provide cards to your organization with a fast turnaround and speed to market on delivery of cards.

### Business Suite

FIS Business Suite is a packaged program consisting of **Payroll, Purchase Card, Per Diem, Reward and Incentives** with the flexibility to deliver via plastic or virtually.

This provides the use of prepaid cards to eliminate cash, checks and highly manual processes. It lowers costs while streamlining operational tasks, incenting employees, and also embeds as a value-add into software/service.

By 2020, an estimated **\$50 billion** dollars will be used through prepaid cards for payroll

#### Payroll cards

- Achieve 100% electronic payroll and eliminate paper
- Use existing ACH process plus real-time funding availability

#### Corporate Reward | Incentive cards

- Go-to solution for sales and service incentives
- Easy online card ordering tool

#### Corporate Purchasing Card

- Great alternative for business expenses, vendor payments, petty cash, travel per-diem or to extend credit to contract workers
