

The Roadmap to Growth

The FIS™ Readiness Report 2018 reveals that while the industry has improved its performance across six key areas, the top scoring firms – the Readiness Leaders – continue to grow twice as fast. What’s their secret? Follow our roadmap to join the Readiness Leaders and accelerate your growth.

Build the operational foundations

The Readiness Leaders have invested in the fundamentals of automation, data and risk management, and they’re reaping the benefits.

More effective results

Reinvigorated talent

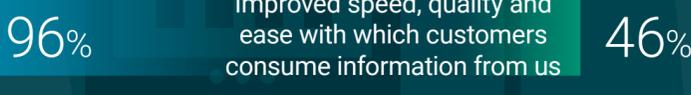

Lower TCO

AUTOMATION

DATA MANAGEMENT

Greater client value

Superior decision-making

RISK MANAGEMENT

Greater confidence in ability of risk management to support growth

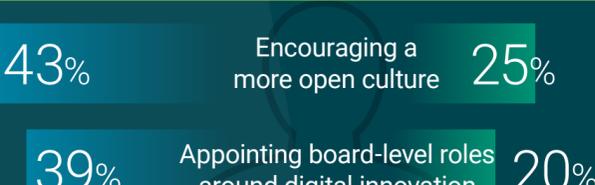

Modernize your operating model

The Readiness Leaders can now build a modernized operating model that is based on digital innovation, emerging technologies and advanced automation – all of which strengthen client value.

Digital innovation strategies have the strongest link to growth, and that’s where the Readiness Leaders have maintained their advantage.

They’re investing in three areas.

DIGITAL TALENT & CULTURE

EMERGING TECHNOLOGY*

CLIENT VALUE

Are you a Readiness Leader or one of the crowd?

Based on a survey of more than 1,500 decision-makers among the buy-side, sell-side and insurance industries, FIS’ signature research assesses firms’ capabilities across six operational pillars. We also isolated the top 20 percent of respondents – the Readiness Leaders – to calculate how their strategies are accelerating their growth and discovered which pillars have the most impact on performance, providing us with a roadmap to help the rest of the industry modernize and improve their growth readiness.

*Percentage of respondents saying they have gone live or are piloting, testing or researching and developing one of these technologies.
